Dear Mr. Jazzo:

This is in reference to the above-captioned application for direct measurement of power due to the replacement of the sample system for station KZRG(AM), Joplin, Missouri.

A preliminary study of the application reveals that Zimmer proposes to correct the electrical heights of the towers from 97.0 degrees to 95.9 degrees. Pursuant to Section 73.3538 of the Commission's rules, Zimmer must file a minor change application (FCC 301 Form) to change the tower heights.

Further action on the subject application will be withheld for a period of thirty (30) days from the date of this letter to provide an opportunity to file the FCC 301 application. Failure to respond or file the 301 application within this time period will result in the dismissal of the application pursuant to Section 73.3568.

Sincerely,

Son Nguyen
